- _____ an existing confinement feeding operation, currently expanding
- _____ a new confinement feeding operation

Date when the confinement feeding operation was first constructed: _____
(Existing operations only)

Documentation required for sales of dry manure under Iowa Code chapter 200 or 200A:

☐ Enclosed is a copy of license for sales of dry manure issued by IDALS

General Description: Describe your livestock production and manure management system in your own words: _____

Animal Unit Capacity (AUC): To calculate your AUC, multiply the maximum number of animals confined at one time by the appropriate factor, then add all animal units together on the following table. If you own or manage another confinement operation within 2,500 feet or that utilize a common system for manure disposal, you must first contact the DNR because the two operations may be considered one:

(No. HEAD) * (FACTOR) = AUC

The information within this form, and supporting documents describes that the dry manure produced at my (our) confinement feeding operation is or will be sold under Iowa Code chapter 200 or 200A. I (we) will manage the dry manure, and the nutrients it contains, as required in Iowa Code chapter 200 or 200A. Transport of my (our) dry manure off site, will be done in a manner that will minimize surface or ground water pollution. Deviations permitted by Iowa law will be documented and maintained in my records.

I hereby certify that the information provided on this form is complete and accurate.
